

## Introducing CORE: Convenient, coordinated care for your muscles, bones and joints.

Excellence in quality healthcare has long been a hallmark of Daviess Community Hospital. That same commitment continues today with the opening of our new CORE Center, conveniently located at 421 East Van Trees in downtown Washington, with easy access from Hwy 57 and Van Trees.

Dedicated to chiropractic, orthopaedic and outpatient therapy, our new 18,000-square-foot multi-specialty clinic will provide efficient care for those who may need a combination of treatments such as physical therapy and chiropractic or orthopaedics and rehabilitation.

The new CORE Center is home to the offices of Dr. Marcus Thorne, Dr. Jess Brower, and DCH Outpatient Therapy. Both Dr. Thorne and Dr. Brower will see patients on the second floor, while the entire first floor will be devoted to therapy services.

The primary mission of Daviess Community Hospital is to ensure that our community has access to excellent coordinated care in a convenient location. The CORE Center is an integral part of that mission.

# EXCELLENCE

DCH's Outpatient Rehab Team

Chiropractic physician Dr. Jess Brower, board certified by the American Chiropractic Rehabilitation Board, offers expertise in the rehabilitation of spinal and extremity-related injuries. He also has a special interest in the treatment and prevention of athletic injuries. Dr. Brower provides a progressive chiropractic approach with a comprehensive treatment strategy to conservatively address spinal, muscular, joint, or nerve related conditions that cause pain or limit activity. Treatments are always based on the patient's needs and values, combined with clinical experience and current evidence to determine the best course of care.

## Chiropractic Excellence

Specializing in athletic, spinal and extremity-related injuries

### Conditions and injuries often treated:

- Conditions involving the Shoulder, Elbow, Wrist, Hand, Hip, Knee, Ankle and Foot
- Pregnancy related Low Back and Pelvic Pain
- Numbness or Tingling in the Extremities
- Cervical or Lumbar Disc Disorders
- Athletic Injuries
- Headaches
- Spinal Pain
- Scoliosis
- TMJ Pain
- Sciatica

Dr. Jess Brower

Orthopaedic surgeon Dr. Marcus Thorne and a team of orthopaedic specialists provide a comprehensive range of care, with special focus on total joint replacement, arthroscopy of the knee, shoulder and ankle, sports medicine and fracture care. Dr. Thorne is board certified and personally sees each candidate for surgery. Walk-in athletic injuries are welcomed, and X-ray services are available on-site.
